## Profile

---

Full-Stack Developer and Startup Founder experienced in building scalable web and mobile applications using modern frameworks. Skilled in React, Next.js, Node.js, and MySQL with expertise in UI/UX design, REST APIs, and team leadership. Passionate about creating technology-driven solutions with real-world impact.

## Experience

---

### Full Stack Developer Intern – Ecoflitz (UK)

*Jul–Oct 2025*

- Completed a **paid remote 3-month internship** at a UK-based software company.
- Developed full-stack web projects using **Next.js, React, MySQL, and Node.js**.
- Implemented secure authentication, REST APIs, and optimized backend queries.
- Collaborated with cross-functional teams to deliver production-ready features.

### Chief Executive Officer – Khuda Hafiz (Startup)

*2025–Present*

- Founded a digital funeral management startup serving clients across Pakistan.
- Led development of mobile and web apps using **React Native, Next.js, Node.js, MongoDB, Tailwind, and Gemini API**.
- Integrated AI chatbot, therapist agent, and live location features.
- Oversaw product strategy, marketing, and vendor operations.
- Achievements: **1st Runner-up** at Air University Incubation Center; representing in **Hult Prize 2025**.

### Marketing Director – Google Developer Groups (Air University)

*2024–Present*

- Managed promotional strategies for AirMUN'25 and AirTech'25, boosting participation by 800+.
- Created visual and written content for digital campaigns and event branding.

### Sponsorship Lead – Microsoft Learn Student Ambassador Society (Air University)

*2025–Present*

- Negotiated and secured sponsorships for university-level tech events and workshops.
- Collaborated with cross-functional teams to build brand partnerships and enhance visibility.

## Projects

---

### E-commerce Website (Next.js, Node.js, MySQL)

Developed a full-stack e-commerce platform with dynamic product listings, authentication, cart, order management, and secure checkout. Integrated REST APIs and optimized database queries, reducing page load time by **35%** and improving order processing efficiency by **30%**.

### Khuda Hafiz App (React Native, Node.js, MongoDB)

AI-driven funeral service app with real-time tracking, chatbot, and therapist agent for emotional support. Designed contract-based vendor and package modules, supporting **multiple service providers** and reducing service coordination time by **40%**.

*Role: CEO & Full Stack Developer*

### CreepyLink – URL Shortener with Redirect Tracking (Next.js, Supabase, PostgreSQL)

Built a full-stack URL shortening platform with custom slug generation, database-backed redirects, and secure link resolution. Implemented collision handling and indexed lookups, enabling **sub-100ms redirects** and supporting **thousands of tracked links** with authenticated user access.

### AI Content Detection System (Browser Extension & Computer Vision)

Developed an AI-powered system to detect synthetic content across text and images. Built a browser extension for real-time AI text detection using NLP-based inference and confidence scoring, achieving up to **85% accuracy**. Implemented a PyTorch-based image classifier with CNN inference pipelines, achieving **80%+ accuracy** on AI-generated image datasets.

### Khuda Hafiz App & Website Design (Figma)

Created interactive UI/UX designs for mobile and web platforms, improving navigation clarity and reducing task completion steps by **25%** through iterative usability testing.

## Technical Skills

---

**Languages:** JavaScript (ES6+), TypeScript, Python, C++, SQL, HTML5/CSS3, Java

**Frameworks & Libraries:** React.js, Next.js, React Native, Node.js, Express.js, Tailwind CSS, Flask

**Databases:** MySQL, MongoDB, PostgreSQL, Supabase, Firebase

**AI / ML:** PyTorch, NLP Basics, Computer Vision, Pre-

trained Model Inference, Tensor Processing

**Tools & Platforms:** Git, GitHub, VS Code, Docker, Figma, Adobe XD, Jira, Postman

**Concepts:** RESTful APIs, Authentication & Authorization, Full-Stack Architecture, Agile/Scrum, UI/UX Design, Browser Extensions, AI Integration

## Certifications

---

DSA Bootcamp (Google Dev, Amazon Sponsored) • Full Stack Web Dev Internships (Ecoflitz, OctaNet, EvoSoft)  
• Marketing Director – AirMUN'25 • Core Team – GDG Air University

## Education

---

**BS Software Engineering**

Air University, Islamabad

*2022–2026*
